

EXPERIMENT-1

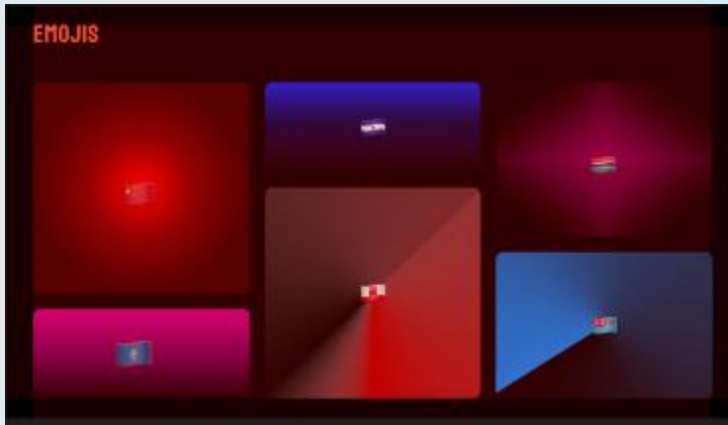

MEMORY RECALL TEST

1.

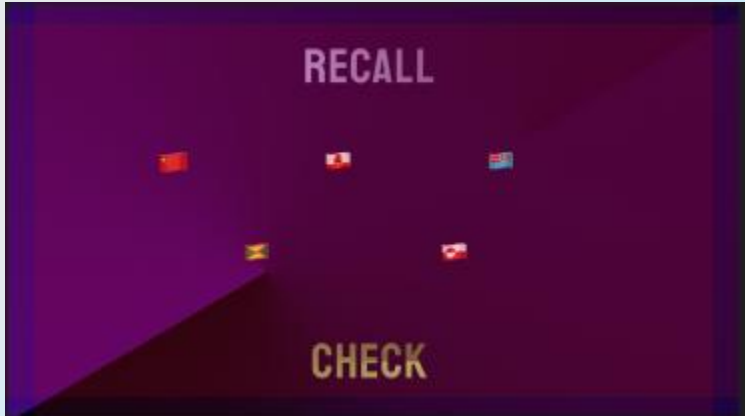

This is the first frame which is the the start page and you can click anywhere on the page to move onto the next one

2.

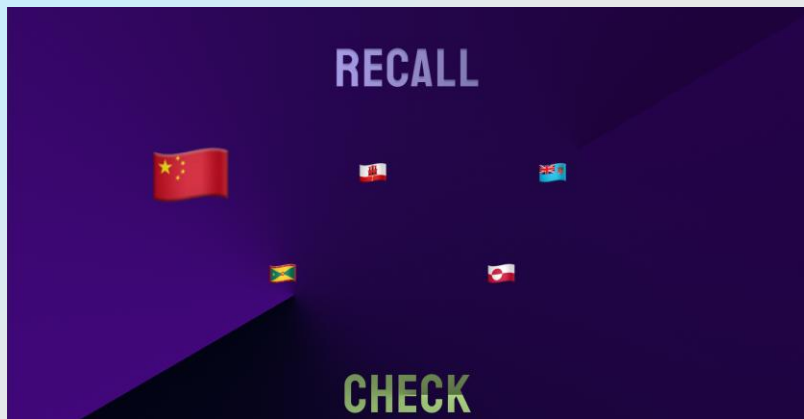

After clicking on the first frame then you are moved on to the second frame which stays for a duration of 5 sec then changes to the selection screen

3.

In this frame you have to select the flags you remember and once you click on them itll enlarge as such

Then you press the check button to obtain your score

4.

This is the final frame if your score is less you may retry with the retry button which will send you back to the second frame where you can observe the flags again and try to beat your previous score
